Re: Proposal for Amendment to Annex I  
of the Agreement on the Conservation of  
Albatrosses and Petrels (Attached)

Dear Mr. Papworth,

As regards the recommendations made during the Seventh Meeting of the Advisory Committee (AC7), Chile wishes to formally submit its nomination for the listing of the pink-footed shearwater (*Puffinus creatopus*) under Annex I of the Agreement on the Conservation Albatrosses and Petrels.

In accordance with Article XII of the Agreement, Chile herein submits the attached proposal for consideration at the Fifth Session of the Meeting of the Parties (MoP5), to be held in the city of Santa Cruz de Tenerife, Spain, from 4 - 8 May, 2015.

To assist the Parties in their consideration of this proposal, Chile wishes to request that the Secretariat distribute the following information paper to the MoP5:

- AC7 Doc 24, Listing of New Species - Pink-footed Shearwater, ***Puffinus creatopus***, a document reviewed at the AC7, which provides a species conservation assessment for the pink-footed shearwater;
- North American Action Plan for the Conservation of the Pink-footed Shearwater (***Puffinus creatopus***);
- National Plan for the Conservation of the Pink-footed Shearwater in Chile;
- Chilean National Action Plan for reducing seabird by-catch in longline fisheries;
- Recovery Strategy for the Short-tailed Albatross and the Pink-footed Shearwater in Canada;

Given that Australia and Peru may wish to support this proposal, a copy of this letter shall be forwarded to them.

Yours sincerely,

Raúl Súnico Galdames  
Undersecretariat of Fisheries and Aquaculture

**ANNEX 1.**

**DRAFT RESOLUTION**

**AGREEMENT ON THE CONSERVATION OF ALBATROSSES AND PETRELS**

**Resolution 5.X**

**Proposal for Listing under Annex I of the Agreement on the Conservation  
of Albatrosses and Petrels**

**Chile**

*In view of the fact* that the pink-footed shearwater (***Puffinus creatopus***) is included in Appendix I of the Convention on the Conservation of Migratory Species of Wild Animals;

*Considering* that the pink-footed shearwater could benefit from the listing in the Agreement, and with a view to promoting coordinated conservation actions among the Range States;

*Being aware* of the national and international efforts made to address the existing concerns regarding the pink-footed shearwater, among them the North American Action Plan for the Conservation of the Pink-footed Shearwater (*Puffinus creatopus*), the National Plan for the Conservation of the Pink-footed Shearwater in Chile, the Chilean National Action Plan for reducing seabird by-catch in longline fisheries, and the Recovery Strategy for the Short-tailed Albatross and the Pink-footed Shearwater in Canada;

*Given* that this species faces serious threats, especially predation in breeding colonies and by-catch of fishing gear;

*Considering* the recommendation of the Advisory Committee (AC7) to list the pink-footed shearwater (***Puffinus creatopus***) in Annex I of the Agreement.

**The Meeting of the Parties to the Agreement on the Conservation of Albatrosses and Petrels**

**Agrees:**

In accordance with Article XII (5) of the Agreement, to adopt the following amendment to Annex I of the Agreement on the Conservation of Albatrosses and Petrels:

- Listing of the pink-footed shearwater (***Puffinus creatopus***) in the ACAP list of species.

**ANNEX 2. ADDITIONAL INFORMATION ON PINK-FOOTED SHEARWATER,
